Worcester Nov. 18 1847

Dear Mr. Garrison

290

After mature deli-
beration my husband and myself
have decided to ask you, if you are
willing that those portions of your
letter of the 12 inst. — which I enclose
for your perusal — which I mark,
should be published. We think they
are needed to counteract the influ-
ence of Mr. Dillberry with the
large number of the old friends
of the Anti Slavery cause, among
whom he is constantly circulating
and preaching fine abstractions —
like the popular ministers without
making any application of his prin-
ciples to the sins of the day.

As we think our personally should
be kept out of sight I cross out
the word Stephen and add "your
husband." This exposure of Mr. D.

will you please return your letter even should you think best not

would we think help others besides
the old abolitionists to the light
so much needed in this dark
hour.

If you ~~think~~ are willing we should
publish it will you suggest to
what papers or papers we had
best apply.

We think the fact of Mrs.
Chapman's endorsement would
also do good in case the letter
is published.

Our daughter, who is teaching at
the Boston Highlands, boards with
the Coffins - Easton - St Paul
mouth St. Boston. Mr. Coffin
is a cousin of her Cousins. She
has a nice home and a pleasant
school.

With the highest esteem of
my best and kind regards -
A. K. Foster
